## Suno V4 它来了！！！！

🎉 Suno V4终于来了，完善了很多新功能，音质、歌词、结构、封面等等都有了提升。

✨ 新功能：

🔄 **重制（Remaster）**：将您的曲目升级到v4品质

📝 **ReMi歌词模型**：富有创意、更高质量的歌词，提升您的歌曲创作

🎨 **封面艺术**：全新设计，匹配您的音乐氛围

经过v4强化的热门功能：

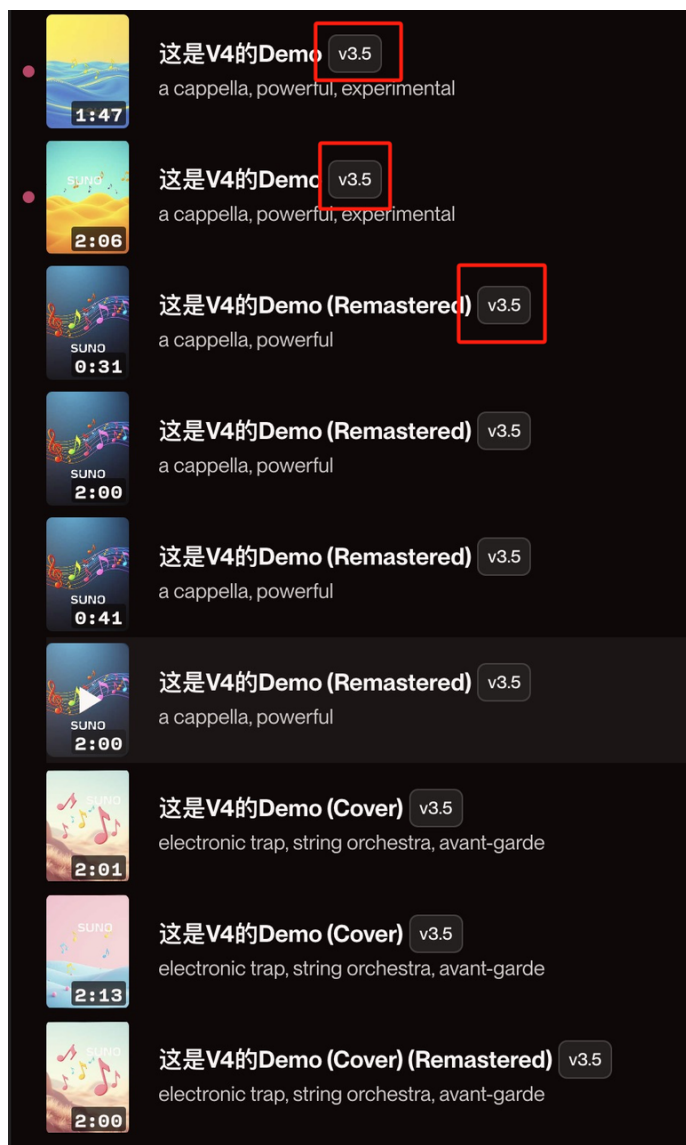

🎵 **翻唱（Covers）**：以全新风格重新演绎经典

🎭 **人物设定（Personas）**：捕捉曲目的氛围并将其带入未来的项目

V4当前只向专业版和高级会员提供测试！

## 注意

🔧 当你选择V4模型，然后生成出来带有右侧图示v3.5字样的，应该是出现bug，

建议找Suno官方进行反馈

邮箱: [support@suno.com](mailto:support@suno.com)

Discord:

<https://discord.com/invite/suno>

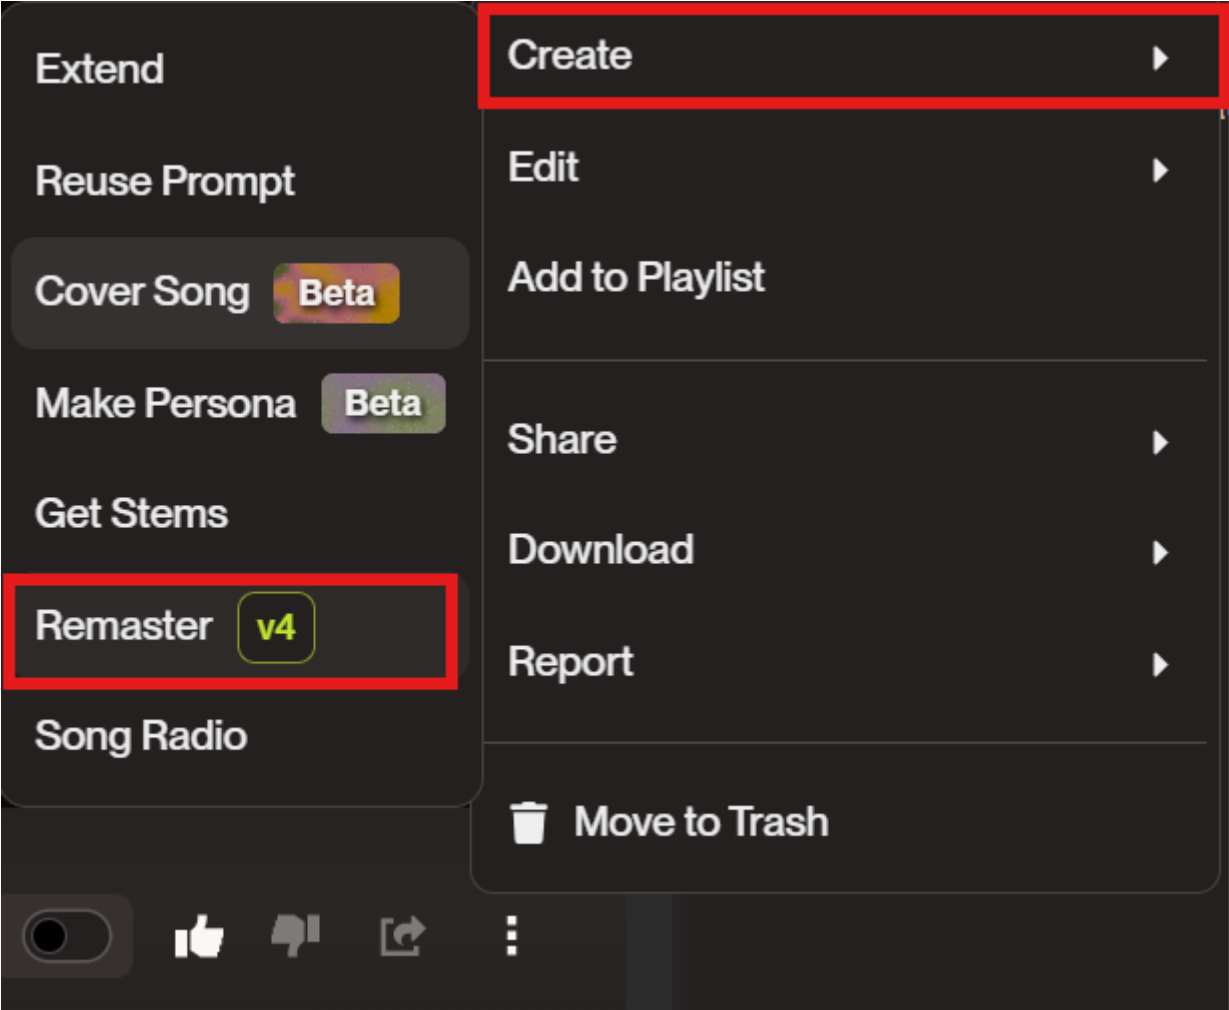

补充:

如生成的歌曲出现音频水印/图像水印可以填写下面的问卷, 更快进行反馈

<https://sunomusic.typeform.com/to/zGsJSzsf>

## 重制 (Remaster)

你可以将之前用v3.5生成的曲子通过这个功能进行提升音质, 获得更好的音乐效果。

ReMi歌词模型

🐒 ReMi模型：我们的最新、最具创意的模型，可能会生成一些人认为冒犯的内容。

Classic模型：它严格遵循指令，冒的风险更小。

简单测评如下：

### 👍 ReMi模型

[Verse]

星星在夜空中闪烁

我在思念中沉默

那些失去的光芒

在空旷的宇宙划破

[Verse 2]

命运总踌躇不定

绽开的烈火 像流星坠落

夜色 微微动摇着

[Chorus]

来不及的再见

美丽的遗言

### 🍎 Classic模型

[Verse]

星星在夜空中闪烁

我在思念中沉默

回忆就像风扑面而来

心中的孤单无法说

[Verse 2]

月儿洒下的清冷光

把我的思念都照亮

黑夜里我独自徜徉

寻找你残留的芬芳

[Chorus]

夜深了 思念才刚开始

纪念再重温那一瞬间

[Verse]

那是命运最初的详和

在陌生的星球生活

[Verse 2]

凝视着璀璨的火焰

在生命的最后一刻

[Bridge]

如今再灿烂的星光

也唤不醒的灵魂

想你的心 好像一场祭祀

点点滴滴 重复那些提示

你在梦中 并未消失

[Verse 3]

追随你脚步的痕迹

仿佛在找丢失的谜

翻开旧日记本的笔迹

每一页依然残存着你

[Bridge]

没有你的夜显得漫长

无声的想念成了绝响

无论天涯还是海角

你是心中唯一的光亮

[Chorus]

夜深了 思念才刚开始

想你的心 好像一场祭祀

点点滴滴 重复那些提示

你在梦中 并未消失

### ReMi模型

[Verse]

Leavin' when the sun come up

Meet me at the Lido

Tell me you had another bad dream

Got a funny feelin' in your stomach

I say I gotta go

You say you're used to it

### Classic模型

[Verse]

The rain it whispers secrets only we  
can understand

Like lost waves in an ocean  
dissolving in the sand

Its droplets play a symphony only  
heard by few

So busy tryin' to be happy  
I forgot I already am

[Chorus]

The rain whispers secrets only we  
can understand

[Verse]

Ghosts and their songs  
They won't leave us alone  
Those shades of longing  
Keep us company

By now

I know

Where mine goes

By now

I know

Where you're gonna be

[Chorus]

The rain whispers secrets only we  
can understand

[Bridge]

On the slow trains in winter  
Is there someone you can sit with?  
Old crimes and new fears  
Makin' memories after all these years  
The waves still crashing  
On the Marlborough Heads  
Do I ever cross your mind?  
("More often than I like")

We sit here on the rooftop and drink  
in every view

[Verse 2]

Lightning cracks in the distance but  
we're wrapped up tight

Stories in the raindrops while the  
world turns out the light

Mysteries brought to the surface on  
this darkened night

Unraveling the universe filtered  
through our sight

[Chorus]

Whispering rains tell tales of dreams  
Shadowy skies and silver streams  
Dancing lights in sync with time  
Us against the world in rhyme

[Verse 3]

Our words fade in silence but the  
secrets ever flow

Underneath the moonlight where the  
gentle whispers grow

Captured in the rainfall our story will  
unfold

As long as there's a stormcloud our  
secrets will be told

[Bridge]

Hearts beat like thunder clouds roll  
on ahead

[Verse]

Now we've got kids

I walked in on one of his bad dreams

The soil slips but my stance remains

Still Ben takes the piss out of me

But I can say

Funny how the more familiar joy gets

It never takes hold

Never sets

[Verse]

But now I see

I'm practicing for when it all ends

Been tryin' all my life to say goodbye  
to the innocent

Inside the body I'm in

In this fleeting carnival it's just  
what's not said

Every drop a memory of where we've  
been led

Tracing paths to paradise where  
dreams might tread

[Chorus]

Whispering rains tell tales of dreams

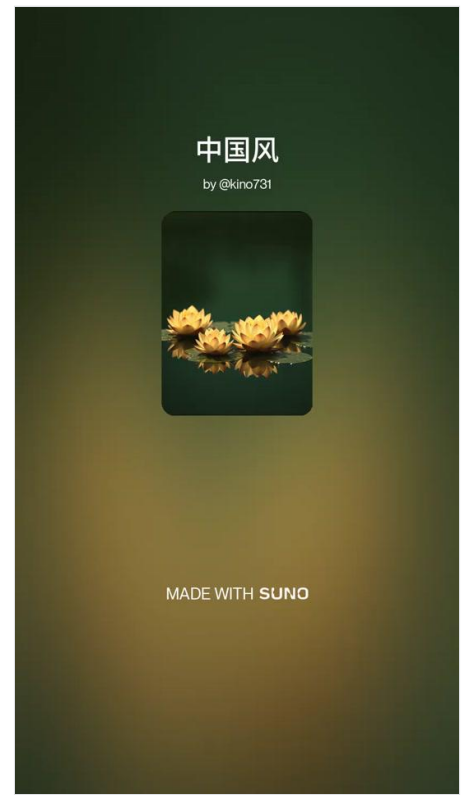

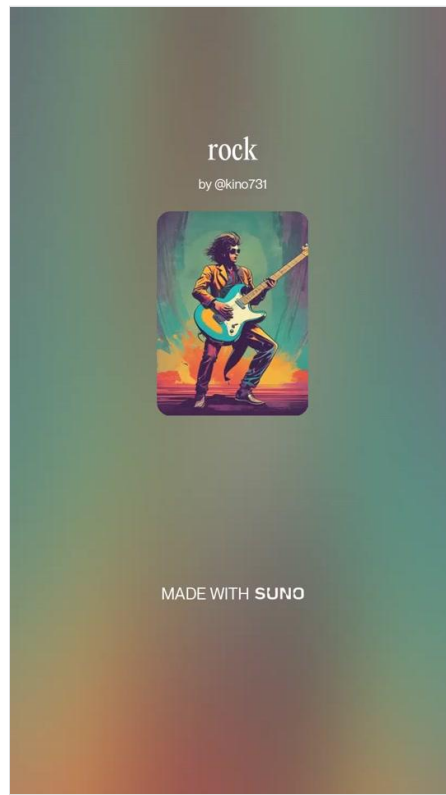

Shadowy skies and silver streams

Dancing lights in sync with time

Us against the world in rhyme

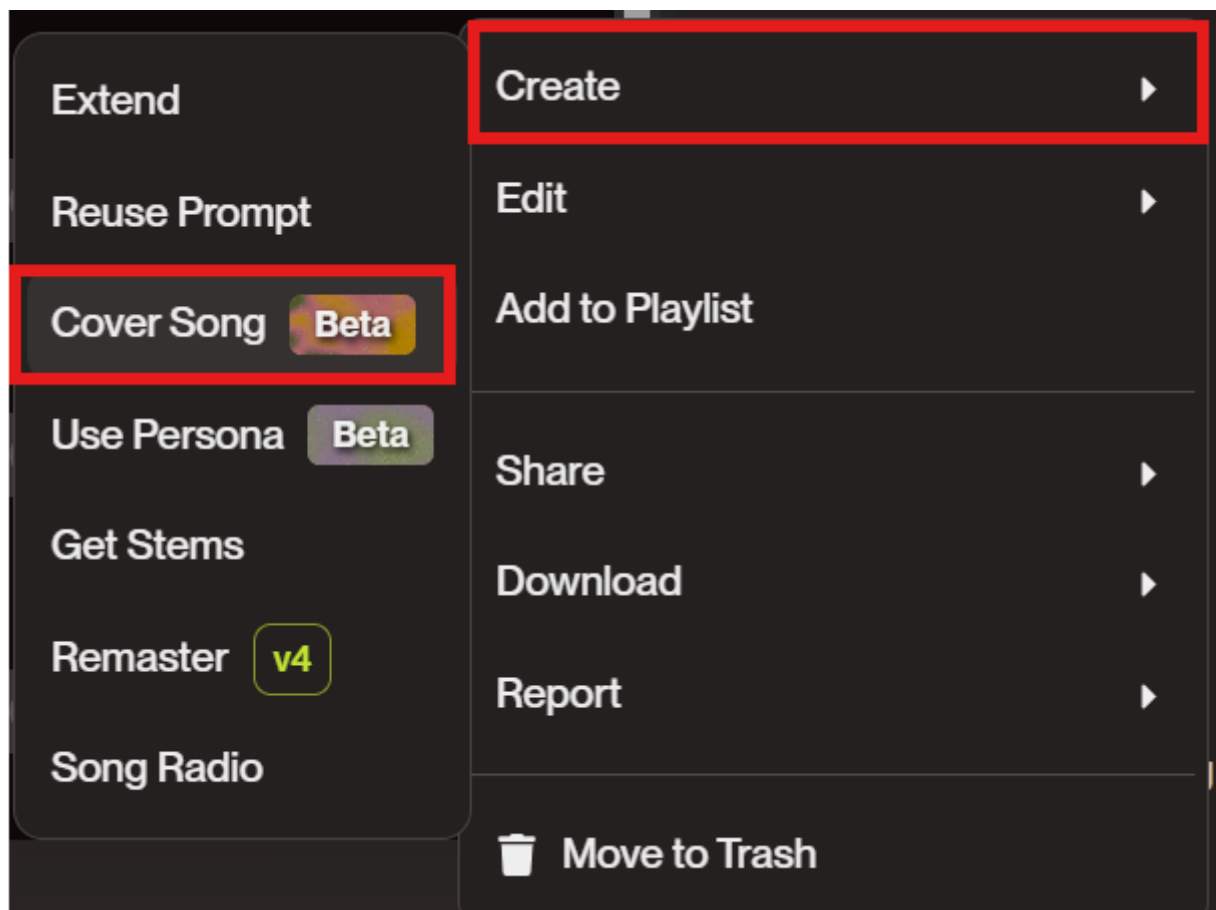

## 封面艺术

封面也是全新设计，特别好看！支持自定义修改封面

## 翻唱 (Covers)

👍 翻唱功能允许您保留歌曲的旋律，但将其采用不同的风格。可以进行人声转换，乐器转换，纯音乐变带有人声的歌曲等功能

下面为V3.5和V4模型下Cover功能有哪些变化，做的人声方面的简单测评，仅供参考

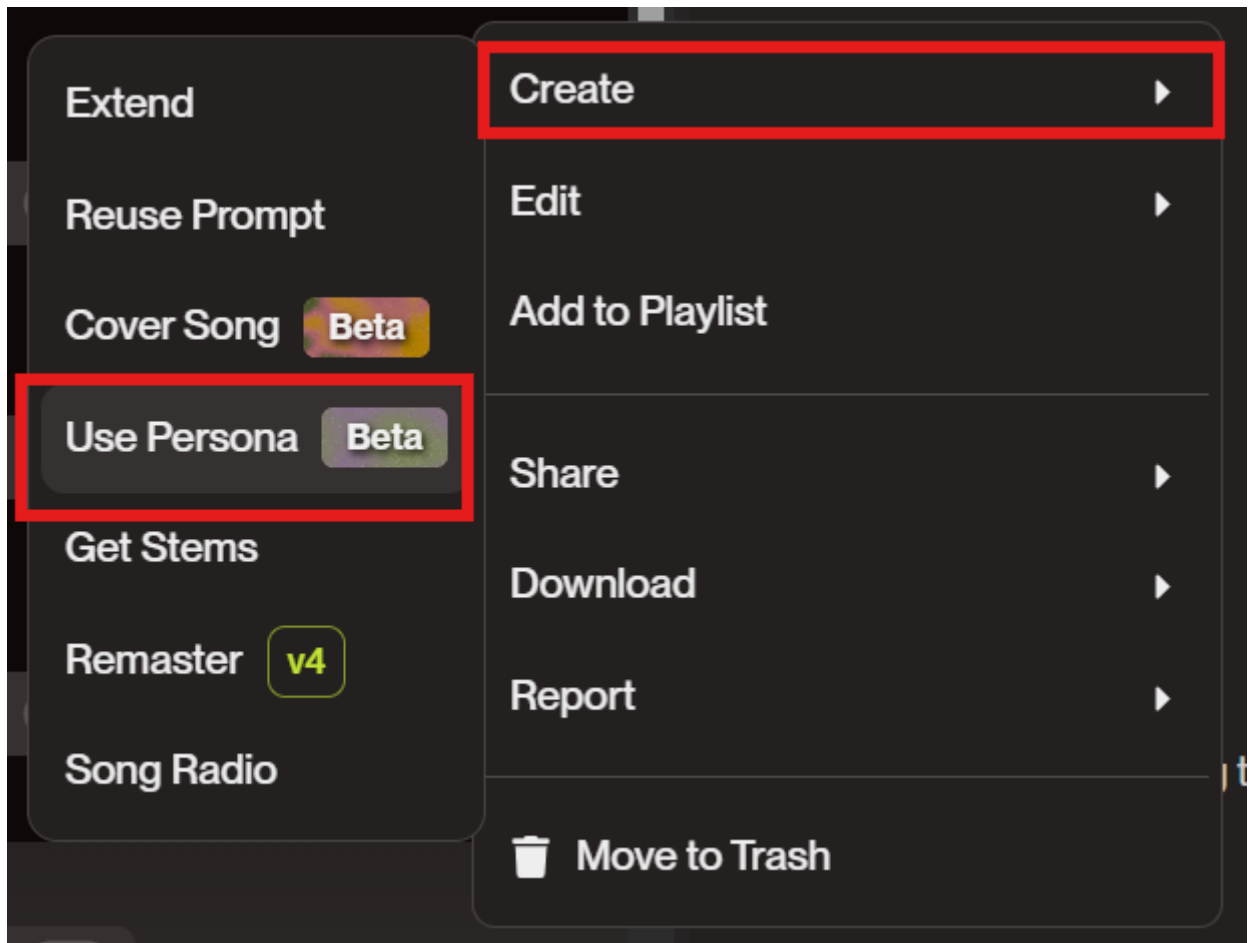

模型	原音频	Cover后
V3.5	<div><div></div><div>Shamisen</div><div></div></div>	<div><div></div><div>Shamisen_(Cover)</div><div></div></div>
V4	<div><div></div><div>Shamisen</div><div></div></div>	<div><div></div><div>Shamisen_(Cover) (1)</div><div></div></div>

 测试下来，由于音质不同步，直接使用V4的cover后会出现人声不稳定的情况，这里建议是将v3.5生成的歌曲进行一次Remaster，再进行V4的cover，效果会好一些。

原音频	Remaster后	V4的Cover

## 人物设定（Personas）

 人物设定会功能将一首歌曲的声音和风格复制到您创作的新歌曲中。此功能仅对专业版和高级用户开放。订阅以获取访问权限。
